

Defining the Mydata Library

To define the **mydata** library, follow the steps for the SAS software you are using to do the practices in this course.

SAS Studio

1. Open and submit the **setup.sas** program that you saved when you [set up practice files](#) for this course.
2. Check the log to verify that SAS successfully assigned the library.

Base SAS on Windows

1. Open and submit the **setup.sas** program that you saved when you [set up practice files](#) for this course.
2. Check the log to verify that SAS successfully assigned the library.

SAS University Edition

1. Open and submit the **setup.sas** program that you saved when you [set up practice files](#) for this course.
2. Check the log to verify that SAS successfully assigned the library.

SAS OnDemand for Academics: SAS Studio

1. Open and submit the **setup.sas** program that you saved when you [set up practice files](#) for this course.
2. Check the log to verify that SAS successfully assigned the library.
