

## Practice: Concatenating Data Tables

The file **ProfitQ1-Q3.jmp** includes information about profits by product, for every transaction, for the first three quarters of the year. The data for the fourth quarter are stored in the file **Profit Q4**.

1. Use **Concatenate** from the Tables menu to add the Q4 data to the bottom of the **Q1-Q3** table and save this file as **Profits Q1-Q4.jmp**.

Make **Profits Q1-Q3.jmp** the active file before launching **Concatenate**.

2. How many rows are in the final file, **Profits Q1-Q4.jmp**?

There are 24546 rows in the final file.
