Predictive Modeling and Text Mining

Issued by [SAS](#)

Predictive Modeling and Text Mining is part of the Statistical Thinking for Industrial Problem Solving course. In this module, you learn tools for describing and exploring your data. You also learn how to identify possible relationships, build predictive models and derive value. [More...](#)

Skills

Define Terminology Used In Processing Text Data

Describe Basic Models Used For Prediction And Classification

Describe How To Compare And Select The Best Predictive Model

Describe Why Validation Is Used In Predictive Modeling

Interpret Measures Of Accuracy For Predictive Models
