

Questions Module 2.5

You can use JMP scripts, JMP journals, and JMP projects to save your work and enable others to repeat your analyses.

- ☐ a. True
- ☐ b. False

a

Incorrect.

The correct answer is **a**. Each of these formats can be used to save your analyses and your analysis workflow.

Which of the following options for sharing your work in JMP enables you to package your data and linked analyses in an interactive window that can be accessed in JMP or as a web report?

- ☐ a. JMP script
 - ☐ b. JMP journal
 - ☐ c. JMP project
 - ☐ d. JMP dashboard
-

Incorrect.

The correct answer is **d**. In a dashboard, you can display tables, graphs, and analyses in an interactive window with linked panels.

You can only access and interact with JMP dashboards from within JMP.

- ☐ a. True
 - ☐ b. False
-

Incorrect.

The correct answer is **b**. You can save JMP dashboards in formats that enable you to interact with the graphs and analyses outside of JMP. You can save dashboards as Interactive HTML files, or you can publish dashboards to JMP Public.
